

Major Equipment

Top Priority Equipment Replacement

Slated for School Board Discussion March 22, 2018

A voter proposition associated with purchase of a plow truck with sander to replace the school district's thirteen year old plow truck, and a commercial-sized mower for the school district's athletic fields and playground areas to replace the 25 year old mower is recommended for the May 2018 annual vote and election. Both items are available via state contract.

The voter proposition would include mention that monies from the school district's existing capital reserve fund for school bus and other motor vehicle would be used for these top priority purchases.

Thank you for your consideration!

This concise public report to the Westport CSD Board of Education was constructed by A. Paul Scott, Interim Superintendent.
